## Judge Fleming for County Attorney.

The DISPATCH has the pleasure this

week to present the name of Hon. W. A.

Fleming as a candidate for

county attorney at the coming election.

Mr. Fleming is well known to

a majority of our readers and the

voters of Crow Wing county. His

ability is unquestioned, and a better

man for the position could not be se-

lected. For several terms he has

held the office of municipal judge

and has given the best of satisfaction,

in fact no fault could be found with

his administration of the affairs of the

municipal court. Two years ago he

was sent to the legislature from this

county, and his record there was such

as to command the respect and admi-

ration of the members of both houses,

and his constituents were entirely

satisfied and would be pleased to see

him returned again if he was so in-

clined. Mr. Fleming's many friends

throughout the county will undoubt-

edly be pleased to learn that he has

consented to the use of his name in

this connection, and they will see that

his election is by a rousing majority,

if, indeed, there is any opposition to

his candidacy.

## Comstock is Nominated.

The Fifth district republican con-

vention at Little Falls yesterday af-

ternoon was a very harmonious affair

and S. G. Comstock was nominated

by acclamation. The platform adopt-

ed endorses Harrison's administration

and Blaine's reciprocity idea. Mr.

Comstock's course in congress in vot-

ing to place sugar on the free list and

to reduce the tariff on binding twine,

was applauded.

Every county in the district was

represented, and whatever feeling

there may have been in St. Louis

county against the renomination of

Mr. Comstock early in the campaign,

had been entirely settled. The best

of feeling prevailed, and Mr. Com-

stock has the satisfaction of knowing

that the great Fifth district as a unit

endorses his untiring efforts in con-

gress.

We are somewhat surprised at a

sentence in a recent editorial in the

Princeton Union, in which it stated

in effect that it would be good politics

to give Todd county the senatorship.

It is well known here that the voters

in Todd county will be better satisfied

with two representatives, one of them

a farmer, than with one senator, and

that Mr. Lee will be one of the repre-

sentatives. Republicans and democ-

rats in Crow Wing county unite in

the opinion that it is absolutely nec-

essary at this particular time when

Brainerd is likely to have bills of

great local importance in the next

legislature, that we have the senator

as the fighting will all be done in the

senate. Todd county has absolutely

no local interests. Give us the sen-

ator, Bro. Dunn, and we will give the

ticket two hundred increased man-

power.

A BOOKBINDER in Vienna was called upon to bind a volume of 100 leaves worth 1,000,000 gulden. Each leaf was a bond for 1,000 gulden, the book being the owner's gift to his only daughter.

The superintendent of police at Buffalo has issued an order that no more prize fights shall take place in that city. He will be backed by the district attorney and sheriff. Pending fights have been deferred.

It is said that Vice-President Webb, of the New York Central, is really in training for the presidency of that great corporation. The story is that Chauncey M. Depew will retire from the presidency before a great while.

WITHIN the next sixty days there will be completed three new turbot monitors, all in the most approved modern style. Several other war vessels are rapidly nearing completion. At this rate it will not be long before the United States will have a respectable navy.

The naval honors that were paid to the remains of the late Capt. Erickson were in every way fit and as much honor to the United States government as they were to the memory of the great inventor. Erickson's name should be written along with the names of the greatest admirals and generals of the civil war.

The Buddhists of America, are not Asiatics, but Americans, many of them hailing from a Puritan ancestry. They aspire to a high standard of morality. One of their tenets is that life is sacred, and they are punctilious about killing even the smallest creature.

GREAT distress exists in Oklahoma in consequence of the drought and meager resources of the territory. According to President Harrison's recommendation, the unexpected bulk of the appropriation to the Mississippi sufferers (\$45,000) will be turned over to the relief of the suffering people of the territory.

The banks of St. Louis and other Missouri towns are overwhelmed with silver coin, which they are turning over to the United States treasury and receiving silver notes for. The banks have to pay the express charges both ways for the exchange and it costs them \$1 for each \$1,000.

A LITTLE child in New York, in falling out of a second-story window, grasped two pillows that were lying on the sill, and when she struck the ground the pillows were underneath her and she escaped injury. The place where she fell was paved with cobblestones, and if the child had not fallen on the pillows she would probably have been killed.

The fear of hydrophobia played an Athens, Ga., man a mean trick the other night. On his way home he saw a dog running towards him, and he ran towards the darkness at full speed. Surmising that the dog was mad, the man climbed up a tree and remained there the rest of the night, with the dog standing guard below. When daylight came the man discovered that the dog was his own.

SALMON P. CHASE's old law sign has been discovered, covered with dust and cobwebs, on a building formerly occupied by lawyers on Third street, near Main, in Cincinnati. The name of Flamen Ball, for many years a prominent character in Cincinnati, appears on the sign as Chase's law partner. It was in this building that the late chief justice and his partner had their law office for several years.

The discovery of a case of genuine Asiatic cholera in London is not surprising. The disease will surely progress along the lines of travel, and unless the health authorities of the United States are vigilant we may expect a similar announcement from New York. Cholera may be fenced out, so to speak, by rigid sanitary precautions, and in adequate such measures immediately we will not be blameless for the loss of life and paralysis of business which would be consequent upon an epidemic of cholera in this country.

J. W. FENKES tells in the American Naturalist that vegetation exists in hot springs. The highest temperature on record in which it occurs is 200° F. This indicates that vegetation may have occurred at a much earlier stage of the earth's history than has been generally supposed. The prevailing form of vegetation in these heated waters is algae. Diatoms also occur, but sparingly. They have been found in Nevada at a temperature at which the vegetation of hot springs is most flourishing, but usually occurring in great abundance in the cooled waters of hot springs.

While a Wisconsin Central engine was being repaired at the station of Ashland, Wis., it ran off the track and into Chequamegon bay for a considerable distance and the ties are on piles. The engine ran off the ties and into the bay, being completely destroyed. The engine and fireman jumped and were not hurt, except the former sustained a slight injury to his leg. The fireman was killed, and the wrecking train cannot get at the wreck and the engine will probably have to be taken to pieces and be recovered.

While Frank Roberts was hunting for his calves, about a mile and a half west of Bancroft, Iowa, he was attacked by a wild and ferocious animal, which he mistook for a panther. The animal sprang upon him from a bunch of weeds on the edge of an adjoining field, clearing ten feet in the air by a desperate effort, and then he fell on his back, and he was killed.

John Rankin, a machinist helper  
employed in the Northern Pacific  
shops at Livingston, Mont., was se-  
riously, if not fatally, injured Saturday  
afternoon, while raising an engine  
tank. The jacks slipped, letting the  
tank fall upon him, crushing one leg  
so that amputation is necessary. He  
received other internal injuries.  
Doubts are entertained for his re-  
covery.

Dr. L. M. Roberts, late of Brainerd,  
has secured rooms in the Rhodes'

this city. The Dr. has just returned

to locate, but the prospects not being

thriving city.—Little Falls Transcript.

Quite a Sensation.  
Brainerd gossips have been busy  
during the week, the theme being the  
sudden departure of two married  
women living on Ninth street north,  
one a young widow, the other a wife  
and mother of a two-year-old girl,  
the names of whom will not be men-  
tioned out of respect for the relatives  
they left behind. As the story goes  
the women started for the east and  
the first intimation that the husband  
had of any such intention on the part  
of his wife was a note which he found  
on his return from work and signed  
by his spouse, which informed him  
that she had gone never to return.  
There are many sensational rumors  
about, one being that the young  
widow was to have been married in a  
month to a Northern Pacific employee.

Democrats Elect Delegates.  
The democratic convention for  
Crow Wing county was held at the  
auditor's office in the court house this  
afternoon, and, although the at-  
tendance was not large it was an  
exceedingly harmonious meeting.  
There were eight delegates present,  
the third and fourth wards not be-  
ing represented and none of the  
country precincts except Oak Lawn.  
The meeting was called to order and  
Con. O'Brien elected chairman and  
C. D. Johnson secretary. The follow-  
ing delegates were then elected by  
ballot:

State Convention—Werner Hem-  
stead, S. W. Searles and Wm. Koop.  
Congressional Convention—H. C.  
Stivers, A. J. Demeules and John  
Bubar.

Legislative Convention—C. D.  
Johnson, Werner Hemstead and Wm.  
Barron.

An effort was made to have the  
delegates to the Congressional con-  
vention instructed to endorse the  
Farmer's Alliance candidate but  
without success, as the sentiment  
seemed to be in favor of an unin-  
structed delegation. The convention  
then adjourned.

falling from a hand car the first of  
the week and it is reported that his  
back was broken. He is at the san-  
itarium.

Miss Maggie Johnson, who has  
been visiting with Mr. and Mrs. J. F.  
McGinnis for some time, left for her  
home in La Crosse, Wis., last Sat-  
urday. She will stop at Minneapolis  
to visit friends and relatives for a  
short time.

The Baker Opera company, which  
has been holding the boards at the  
opera house during the week, are an  
excellent troupe and are entitled to  
better patronage than they have been  
receiving.

Invitations have been issued for  
the wedding of Miss Myrtle Bixby  
and Angus Murray, which takes place

hugely enjoyed by everyone and Ken-

A Brainerd gentleman who was in  
this city last Saturday informs us that  
over 11,000 bushels of blueberries have  
been shipped from that city this sea-  
son. J. H. Hallett has shipped 5,000  
bushels, and Koop Bros. 3,000, and  
other parties in that city 3,000 bushels,  
the price averaging \$1.50 per bushel.  
The cranberry crop is the largest ever  
known, and he thinks at least 6,000  
bushels will be marketed this year in  
that city.—Transcript.

John Rankin, a machinist helper  
employed in the Northern Pacific  
shops at Livingston, Mont., was se-  
riously, if not fatally, injured Saturday  
afternoon, while repairing an engine  
tank. The jacks slipped, letting the  
tank fall upon him, crushing one leg  
so that amputation is necessary. He  
received other internal injuries.  
Doubts are entertained for his re-  
covery.

Dr. L. M. Roberts, late of Brainerd,  
has secured rooms in the Rhodes'  
Block, First street, and will at once  
commence the practice of medicine in  
this city. The Dr. has just returned  
from Northfield, where he expected  
to locate, but the prospects not being  
favorable, he decided to locate in our  
thriving city.—Little Falls Transcript.

Quoted a Sensation.  
Brainerd gossip has been busy  
during the week, the theme being the  
sudden departure of two married  
women living on Ninth street north,  
one a young widow, the other a wife  
and mother of a two-year-old girl,  
the names of whom will not be men-  
tioned out of respect for the relatives  
they left behind. As the story goes  
the women started for the east and  
the first intimation that the husband  
had of any such intention on the part  
of his wife was a note which he found  
on his return from work and signed  
by his spouse, which informed him  
that she had gone never to return.  
There are many sensational rumors  
about, one being that the young  
widow was to have been married in a  
month to a Northern Pacific employee.

Judge Fleming for County Attorney.

The DISPATCH has the pleasure this week to present the name of Hon. W. A. Fleming as a candidate for county attorney at the coming election.

Mr. Fleming is well known to a majority of our readers and the voters of Crow Wing county. His ability is unquestioned, and a better man for the position could not be selected.

For several terms he has held the office of municipal judge and has given the best of satisfaction, in fact no fault could be found with his administration of the affairs of the municipal court. Two years ago he was sent to the legislature from this county, and his record there was such as to command the respect and admiration of the members of both houses, and his constituents were entirely satisfied and would be pleased to see him returned again if he was so inclined.

Mr. Fleming's many friends throughout the county will undoubtedly be pleased to learn that he has consented to the use of his name in this connection, and they will see that his election is by a routing majority, if, indeed, there is any opposition to his candidacy.

Comstock is Nominated.

The Fifth district republican convention at Little Falls yesterday afternoon was a very harmonious affair and S. G. Comstock was nominated by acclamation. The platform adopted endorses Harrison's administration and Blaine's reciprocity idea. Mr. Comstock's course in congress in voting to place sugar on the free list and to reduce the tariff on binding twine, was applauded.

Every county in the district was represented, and whatever feeling there may have been in St. Louis county against the renomination of Mr. Comstock early in the campaign, had been entirely settled. The best of feeling prevailed, and Mr. Comstock has the satisfaction of knowing that the great Fifth district as a unit endorses his untiring efforts in congress.

We are somewhat surprised at a sentence in a recent editorial in the Princeton Union, in which it stated in effect that it would be good politics to give Todd county the senatorship. It is well known here that the voters in Todd county will be better satisfied with two representatives, one of them a farmer, than with one senator, and that Mr. Lee will be one of the representatives. Republicans and democrats in Crow Wing county unite in the opinion that it is absolutely necessary at this particular time when Brainerd is likely to have bills of great local importance in the next legislature, that we have the senator as the fighting will all be done in the senate. Todd county has absolutely no local interests. Give us the senator, Bro. Dunn, and we will give the ticket two hundred increased majority.

An increase of \$350 has been secured by Congressman Comstock in the allowance of clerk hire for the St. Cloud post-office.

With the potato crop a failure, the hay crop ruined, and the turf bad, Ireland is certainly in hard luck this year.

MANA LIFE

HAS been saved by the prompt use of Ayer's Pills. Travelers by land or sea are liable to constipation or other derangements of the stomach and bowels which, if neglected, lead to serious and often fatal consequences. The most sure means of correcting these evils is the use of Ayer's Cathartic Pills. The prompt sailing-master would as soon go to sea without his chronometer as without a supply of these Pills. Though prompt and energetic in operation, Ayer's Pills leave no ill effects; they are purely vegetable and sugar-coated; the safest medicine for old and young, at home or abroad.

"For eight years I was afflicted with constipation, which at last became so bad that the doctors could do no more for me. Then I began to take Ayer's Pills, and soon the trouble was cured. My natural and regular action, so that now I am in

health."—Mrs. C. E. Clark, Tewksbury, Massachusetts.

"I regard Ayer's Pills as one of the most reliable general remedies of our times. They have been in use in my family for afflictions requiring a purgative, and have given unvarying satisfaction. We have found them an excellent remedy for colds and light fevers."—W. R. Woodson, Fort Worth, Texas.

"For several years I have relied more upon Ayer's Pills than upon anything else in the medicine chest, to regulate the bowels and those of the ship's crew. These Pills are not severe in their action, but do their work thoroughly. I have used them with good effect for the cure of rheumatism, kidney troubles, and dyspepsia."—Capt. Mueller, Steamship Pelican, New York City.

"I have found Ayer's Cathartic Pills to be a better family medicine for common use than any other pills within my knowledge. They are not only very effective, but safe and pleasant to take—qualities which must make them valued by the public."—Jules Hauel, Perfumer, Philadelphia, Pa.
